Notes:

1. United States Environmental Protection Agency's (US EPA) Vapor Intrusion Screening Levels (VISLs) are noted in the table and can be found [here](#). The term "Vapor Intrusion Screening Levels" or "VISLs" is used as a generic term for regulatory standards.
2. The [Arkansas Department of Environmental Quality](#) does not have stand-alone vapor intrusion guidance and defaults to US EPA guidance.
3. Site specific evaluation or mitigation is required if the VISLs are exceeded.
