Notes:

1. Michigan Department of Environmental Quality (MDEQ) vapor intrusion screening levels are noted in the table and can be found [here](#)*. The term "Vapor Intrusion Screening Levels" or "VISLs" is used as a generic term for regulatory standards.
2. The United States Environmental Protection Agency's (US EPA) Vapor Intrusion Screening Levels (VISLs) link is included [here](#) for reference.
3. Site-specific evaluation or mitigation is required if the VISLs are exceeded. More information on vapor intrusion guidance can be found [here](#).

*On February 20, 2019 the MDEQ removed the VISLs from their website. A replacement was not provided as of this date.
