## Notes:

1. Virginia Department of Environmental Quality (DEQ) vapor intrusion screening levels for restricted use sites are noted in the table and can be found [here](#). Unrestricted land use screening levels require a DEQ risk assessment. The term "Vapor Intrusion Screening Levels" or "VISLs" is used as a generic term for regulatory standards."
2. The United States Environmental Protection Agency's (US EPA) Vapor Intrusion Screening Levels (VISLs) link is included [here](#) for reference.
3. Site-specific evaluation or mitigation is required if the VISLs are exceeded. More information on vapor intrusion guidance can be found [here](#).
